

A+ Science Newsletter, May 2018

"Treat employees like partners, and they act like partners"

Fred A. Allen

Besides GDPR trainings, email notifications and discussions, it has been a fantastic May in Sweden, we have had and still have amazing weather with high temperatures and barely any rain. We notice how people are happier, incredible what sun does to us. We hope that everyone is enjoying the start of summer.

In this newsletter we would like to mention about the importance of a partnership. As a CRO and service provider to several pharmaceutical, biotech and medical device companies, A+ Science chooses to work in a partnership model, who would not like this collaboration model? The partnership model is based on trust, commitment and reliability. Since we run and own our company we already have the partnership model and culture within our company, this of course makes it easier for us to understand and appreciate partnership.

Are you planning to conduct a clinical trial in the near future? Contact us for a request for proposal. It is always good to take a second opinion, you really lose nothing, on the contrary, you will get all the benefits from a company whose entire personnel is engaged in every way. We also offer custom-made solutions according

to your needs as well as possibilities to price flexibilities. With a proven track record of more than 20 years in business, a large network of investigators and a well-established process for the conduct of clinical trials, we put you in control of the clinical development and help you shorten time to market.

Contact us at info@a-plusscience.com to learn more about how we can assist you.

A+ Science will be attending several events. If you will be participating and wish to meet us there, please send an email to info@a-plusscience.com
