

A+ Science Newsletter, December 2019

"Logic will get you from A to B. Imagination will take you everywhere."

Albert Einstein

Almost a year ago, ProbarE moved to our premises in Stockholm. ProbarE is a professional research site with facilities in Stockholm and in Lund. They are specialized in the conduct of drugs and medical device trials with long experienced staff in pharmaceutical research. ProbarE strives to find the best cost-effective solution and with the highest quality for each project, i.e. short decision routes internally, accurate pre-screening, rapid recruitment and flexible schedule for site staff.

Remember, if you are planning to conduct a clinical trial in Stockholm and you choose ProbarE as the investigational site and A+ Science as the CRO partner, you will not have monitoring travelling expenses in Stockholm for this study. A very cost-efficient solution for the sponsor. Moreover, the study team members will work in a close and efficient way, which is very valuable. A+ Science has an excellent collaboration with ProbarE and we look forward to continuing working together in same projects.

During this holiday season, A+ Science has chosen to make a charitable donation to Médecins Sans Frontières (MSF), an international, independent, medical humanitarian organization. MSF assists populations in distress, to victims of natural or man-made disasters and to victims of armed conflict. They

do so irrespective of race, religion, creed or political convictions. We hope our donation will help those who really need this aid.

With this last newsletter of 2019 we would like to wish all our readers a wonderful Christmas holiday season and a new prosperous and peaceful year. We also hope that 2020 will be a promising year with breakthroughs in the world of clinical research.

GÄVOBEVIS

SEASON'S GREETINGS

We wish you and your loved ones a very Merry Christmas and all the best for a happy, healthy and inspiring new year 2020.

From all of us at A+ Science!

VÄLKOMMEN TILL LÄKARE UTAN GRÄNSER

Vi är en medicinsk humanitär organisation som räddar liv och lindrar nöd där det behövs som mest. Det här arbetet kan vi bara göra tillsammans. Tack vare denna gåva kan vi fortsätta vara på plats där hjälpen bäst behövs.

Läs mer om vårt arbete på lakareutangranser.se

Do not hesitate to contact us at info@aplus-science.com to find out about how A+ Science can help you conduct your clinical trial. We offer custom-made and flexible solutions which increase efficiency and reduce costs associated with bringing new pharmaceuticals to market.
