

A+ Science Newsletter

"Our attitude toward life determines life's attitude towards us."

John N. Mitchell

In this newsletter we are very happy to introduce Hager Saleh who has joined our team.

Internship is designed to provide students engaged in a field experience with an opportunity to share their insights, to explore the links between students' academic preparation and their field work as well as assist participants in developing and carrying out the major research project which will serve to culminate their internship experience.

In 2020 we had the opportunity to offer an internship to Hager Saleh.

Hager Saleh is a MSc student in Health Informatics at Karolinska Institute. Before starting her studies at Karolinska Institute Hager was a lecturer of Health Management at Umm Al-Qura University in Saudi Arabia. Prior to that she was a hospital pharmacist at Alexandria Fever Hospital in Egypt. She has a BSc. in Pharmaceutical Sciences from Alexandria University in Egypt, and MSc in pharmacovigilance and pharmacoepidemiology, from Bordeaux University in France.

"The internship opportunity with A+ Science is an added value, a great chance to expand my horizon and extend my knowledge. Therefore, I consider myself very blessed to be a part of A+ Science team.

I am also very grateful for having the chance to meet the wonderful, professional and cooperative team who led me through this internship period," says Hager.

Hager A. Saleh
