"Believe you can and you're halfway there"

Theodore Roosevelt

A+ Science is proud to announce its collaboration with Atran Pharma, a company based in Stockholm and offering consultancy services within regulatory affairs, from product development to licensing and life cycle management.

"We collaborate with small and large pharmaceutical companies and provide support in all areas of regulatory affairs. We offer a professional and flexible service that is customized to our clients' needs. Our services include, but are not limited to, medical writing, CMC-writing, dossier management, product information, local database and catalogue handling. We have long experience working with the local authorities and have a thorough understanding of the regulatory requirements in the Nordic region. We now look forward to giving our clients an even better regulatory support in cooperation with A+ Science" says David Ellingsen, Medical Advisor and Clinical Expert at Atran Pharma.

From left to right Tobias Törngren, David Ellingsen from Atran pharma, Jennifer Heyno, Johanna Andlin from A+ Science and Peter Bosson from ProbarE.

This new collaboration involves also ProbarE AB, which recruits study subject and has site activities, investigators and study staff. This way we can provide services and solutions depending on customers' needs with a faster start-up time and focus on the precise need.

Did you know that A+ Science has assisted in the accreditation of more than 80 CME events in collaboration with University Hospitals? Continuing Medical Education (CME) can be defined as educational activities the aim of which is to improve the skills and knowledge of physicians and other medical professionals and ensure better and safer treatments for patients.

In August during this year's ESC Congress in Paris, we were involved in several accredited CME sessions. All our accredited CME symposiums were packed with delegates.

The ESC congress focuses on the best and latest science with renowned leaders in cardiovascular medicine. With more than 30,000 delegates – the largest such gathering in the world – and showcase more than 500 sessions during the five-day conference.

Do not hesitate to contact us at info@a-plusscience.com to find out about how A+ Science can help you conduct your clinical trial. We offer custom-made and flexible solutions which increase efficiency and reduce costs associated with bringing new pharmaceuticals to market.
