

## A+ Science Newsletter

*"Life is beautiful not because of the things we see or do. Life is beautiful because of the people we meet".*

Simon Sinek

---

A+ Science participated and celebrated ASCRO's 10th anniversary on September 29th. We did not want to miss this opportunity; it was a very pleasant event where we met other CROs and listened to the interesting panel discussions. It is very important to bring the CROs in Sweden together. ASCRO is now a member of EUCROF which means bringing CROs in Europe together.

Success is built on collaborations and partnerships. This is also very important for our customers who are our partners, we are their extended hand, they rely on our competence and services and most of all trust us. A customer is not just a number displayed on our invoice, we build a relationship which is based on trust and respect. We get this continuous feedback from our customers which makes us very proud. Most importantly our team members at A+ Science believe in this and treat the customers as our partners. Together we make a difference!

Håkan Fröderberg, Karin Gatenbeck Mario Clementi and Eva Fredriksson
