

A+ Science Newsletter, April 2017

"Happiness is when what you think, what you say, and what you do are in harmony"

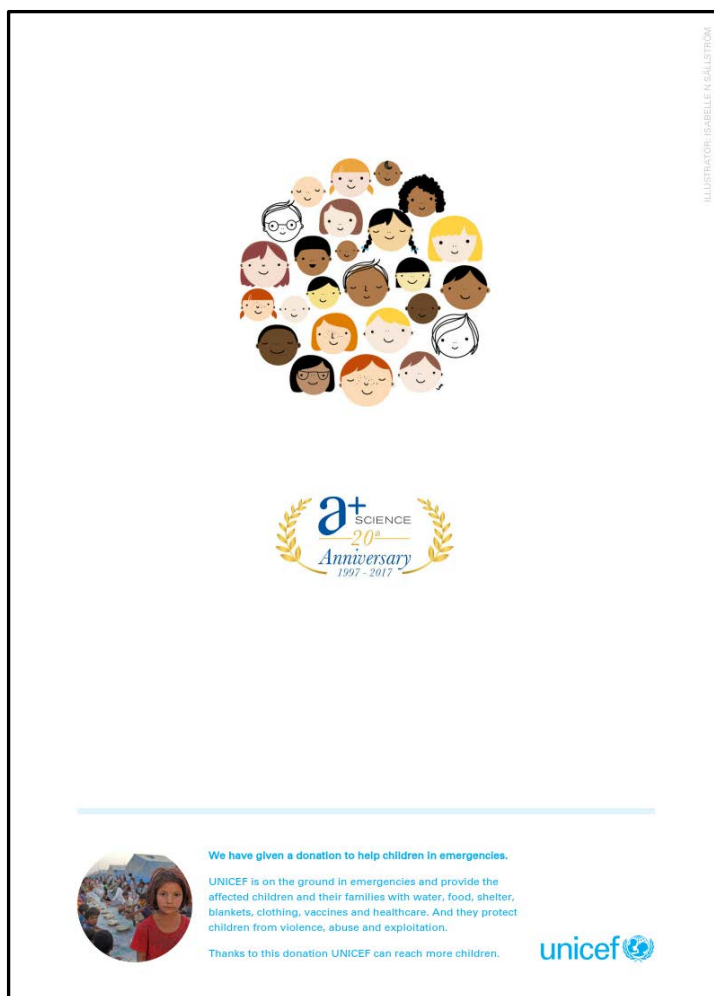

Mahatma Gandhi

A+ Science was established in 1997 as a subsidiary to Gothenburg University. The story began when dedicated researchers within the cardiovascular field formed a CRO, which was at that time known as GUCRI, Gothenburg University Clinical Research Institute. The liaison to the academic world distinguished our company from many other CROs. We were one of the first CROs in the region. We have participated in several multinational studies which have led to changes in the guiding principles and in the treatment of many diseases, making life easier for thousands of patients.

A corporate anniversary is an achievement that deserves recognition. We are very proud to celebrate our 20th anniversary this year. On this special occasion to honor our company we have made a charitable donation to UNICEF to make a difference in a child's life and help children in emergencies. Every child has the same right, regardless country of origin. Children are entitled to sleep safely, drink clean water, eat food and go to school.

A+ Science will be attending several events. If you will be participating and wish to meet us there, please send an email to info@a-plusscience.com

SwedenBio försommarmingel, 17 May, Stockholm
Nationell konferens om kliniska studier, 7–8 September, Stockholm
NLSDays 2017, 12-14 September, Malmö - Medicon Valley
Park Annual 2017, 27 September, Sahlgrenska Science Park, Gothenburg
