

A+ Science Newsletter, December 2017

"True charity is the desire to be useful to others without the thought of recompense"

Emanuel Swedenborg

During this holiday season, A+ Science has chosen to make a charitable donation to Médecins Sans Frontières (MSF), an international, independent, medical humanitarian organization. MSF provides assistance to populations in distress, to victims of natural or man-made disasters and to victims of armed conflict. They do so irrespective of race, religion, creed or political convictions.

With this last newsletter of 2017, we would like to wish all our readers a wonderful holiday season and a new prosperous and peaceful year. We also hope that 2018 will be a promising year with breakthroughs in the world of clinical research.
