

## A+ Science Newsletter, February 2016

*"The strength of the team is individual member. The strength of each member is the team."*

*Phil Jackson*

---

### **A+ Science, a CRO run by its employees**

*Our vision is to become the CRO best known for its unique and dedicated personnel with focus on customer satisfaction. To Earn Trust- Make Difference.*

A+ Science is always proud to introduce its new consultants, however in this newsletter, we are very proud to introduce one of our loyal consultants Sinikka Syren-Nordqvist who has been in our company for many years and enjoys her stimulating work as Senior Clinical Research Associate, (Sr CRA).

*"I have worked at A+ Science for 15 years. I like the atmosphere in our company, we are like a family where we care and respect each other. We work hard but at the same time we have fun together. The combination of these two makes the perfect working environment.*

*As a former ophthalmology nurse, clinical trials within this area are of course my favourite and I also like medical device trials. It is exciting to work with new devices and future treatments which help patients have better and healthier lives.*

*Since Finnish is my native language, working in Finland is no doubt something special. I also enjoy meeting study personnel outside the Nordic countries. We learn from each other and share experiences, so my passionate work as Senior CRA gives me and A+ Science a broad experience within clinical trials", says Sinikka Syren-Nordqvist.*

Sinikka Syren-Nordqvist

A+ Science will be attending several events. The below events are now booked. If you will be participating and wish to meet us there, please send an email to [info@a-plusscience.com](mailto:info@a-plusscience.com)
