

A+ Science Newsletter, January 2016

"We can't solve problems by using the same kind of thinking we used when we created them."

Albert Einstein

A+ Science, a CRO run by its employees

Our vision is to become the CRO best known for its unique and dedicated personnel with focus on customer satisfaction. To Earn Trust- Make Difference.

A new year is here! This is our and your fresh start. It's a time to make resolutions, visualize goals and move forward toward success, growth and change. Commit to make 2016 a good year.

With this first newsletter of 2016 we are proud to announce that Angelika Kunnari has joined A+ Science as a Clinical Research Manager. Angelika holds a Master in Pharmacy and has ten years of experience from the pharmaceutical industry. She started her career as a consultant in regulatory affairs and continued into clinical research in 2007.

Angelika has successfully conducted high quality studies from start-up to closure and has a broad monitoring experience. Therapeutic areas include, but are not limited to, oncology, cardiovascular, neurology and vaccines. In her spare time she loves to travel and spend time with her family.

"I am very excited to join the team at A+ Science with its positive and professional approach. I am very much looking forward to working with my new colleagues and deliver great services to our customers", says Angelika.

Angelika Kunnari

We are planning to participate in several national and international events. The first international upcoming event of spring 2016 is now booked.

A+ Science will be participating during **BIO-Europe Spring 2016** which will take place in Stockholm 4-6 April. If you are planning to be there and would like to meet us, kindly send an email to info@a-plusscience.com
