

A+ Science Newsletter, November 2017

*"An empowered organization is one in which individuals have the knowledge, skill, desire, and opportunity to personally succeed in a way that leads to collective organizational success."*

Stephen Covey

---

Do you need to empower your clinical team?

Most of our outsourcing consultants have been contracted for long periods at Pharmaceutical, Biotech and Medical Device companies, no doubt we are very proud as this indicates client satisfaction. However, we would like to inform our readers that we do also offer short term contracts which can be due to periods of high workload, parental or sick leaves.

Through commercial insight, market intelligence and highly motivated people, outsourcing of consultants helps clients achieve improved outcomes and performance.

"Our consultants are very competent, interesting, hardworking and motivated. We do realize that our clients' requirements are extremely diverse. The flexibility and tailored nature of the outsourcing solutions we offer allows our clients to choose the most cost effective and best solution that suits their own specific needs", says Jennifer Heyno, COO at A+ Science. Speak with us in confidence about your needs, we can then help you find the right consultant who will achieve your business goals.

Message from our Pharmacovigilance Team:

On 22nd of November 2017, the European Medicines Agency (EMA) launched a new and improved version of EudraVigilance. Our colleagues in the Pharmacovigilance Department attended EMA's face-to-face training days *'The new EudraVigilance System and the electronic reporting of ICSRs in the ISO/ICH E2B (R3) format'*, to ensure we are aware of information.

A+ Science safety database roll-out plan is on track and has deployed an update to the transforms required to generate and import files in R3 format. We now have the capability to process files in the new format when you are required to collect and import files via the EudraVigilance EVWEB web application.

*Our vision is to become the CRO best known for its unique and dedicated personnel with focus on customer satisfaction. To Earn Trust- Make Difference.*
