

## A+ Science Newsletter, March 2015

*"The secret of business is to know something that nobody else knows."*

*Aristotle Onassis*

---

### **A+ Science, a CRO run by its employees**

*Our vision is to become the CRO best known for its unique and dedicated personnel with focus on customer satisfaction. To Earn Trust- Make Difference*

A+ Science is proud to announce that Helene Aurelius and Anna Schroeter have joined the company.

Helene Aurelius has joined the company to strengthen the Pharmacovigilance department and will take the position as Drug Safety Officer. Helene has a background as a Reg. Physiotherapist and has a profound experience from the pharmaceutical industry where she has worked both on Nordic and international basis, at affiliate and headquarter levels. Besides pharmacovigilance, Helene also has experience from working in the fields of Regulatory Affairs, Medical Information, Clinical trials and Marketing/Sales; areas in which she will contribute to the company's broadened organization.

*"I am delighted to join A+ Science with its dedicated, committed and customer focused staff and become part of the positive and encouraging atmosphere. I am also looking forward to develop in a challenging environment and to contribute with my knowledge in different life science areas", says Helene.*

Anna Schroeter joins the company as Clinical Research Associate (CRA). Anna has worked internationally and within different roles; she has worked as registered nurse and study coordinator and has several years of experience

within the pharmaceutical field as a Lead Clinical Trial Administrator.

*"I am happy to join the professional team at A+ Science; it is a dynamic company that balances delivering value to clients while also investing in its employees. I am looking forward to this new role as CRA which is challenging but also rewarding, since improving the quality of life for patients and making a difference is the main goal and achievement", says Anna.*
