### **A+ Science, a CRO run by its employees**

*Our vision is to become the CRO best known for its unique and dedicated personnel with focus on customer satisfaction. To Earn Trust- Make Difference*

A+ Science participated during Bio-Europe 2015 in Munich. 3520 delegates and 1886 companies from 55 countries were present during this event. Many of the companies we met with were inspired by our philosophy and vision.

Learn more about our PV services:

A+ Science pharmacovigilance department has extensive experience of safety surveillance and can provide a full-service or customised pharmacovigilance support. We offer pre-and post-marketing services, safety database and case management, 24/7 safety physician, back-up function during holidays, literature search, internal audits and writing of aggregated reports; PSUR and DSUR and much more.

You can hire us for an independent PV audit of your organisation. If you are about to apply for approval for your first Marketing Authorisation you might want to consult us to ensure you have everything in place from a pharmacovigilance perspective.

We also provide pharmacovigilance consultants for outsourcing assignments when you need to strengthen your team for a long or short period of time. Check our website [here](#) to learn more about our pharmacovigilance services or contact our Director of Pharmacovigilance Services, Eva Stenqvist [eva.stenqvist@a-plusscience.com](mailto:eva.stenqvist@a-plusscience.com)

Relationships are important to us. Reach out to learn more about how our approach, experience and flexibility deliver success for our clients. Partnership with us is an extension of your drug development team. A dedicated clinical research team will work to build a relationship with you to establish a shared vision and trust.

A+ Science will be attending Pharma Outsourcing which will take place on December 9 at Stockholm Waterfront. If you will be participating and wish to meet us there, please send an email to [info@a-plusscience.com](mailto:info@a-plusscience.com)
